

# CORONAVIRUS SAFETY TIPS FOR LOTTERY RETAILERS

Follow these easy steps to help prevent the spread of COVID-19

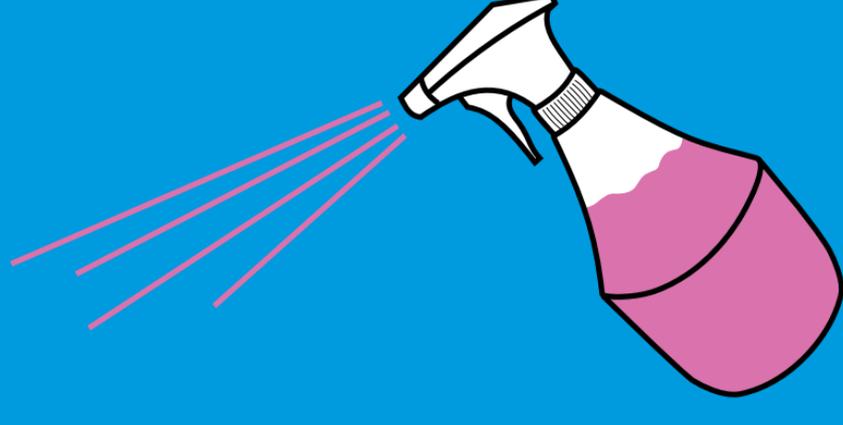

## MINIMIZE CONTACT

- Please follow your store's current policies regarding best practices for physically handling any product.
- To avoid contact, ask players to point to the scratch-off tickets they want instead of touching the lottery display.
- Have your players use the Ticket Checker to check their tickets.
- Encourage players to download the official ASL Club Lottery App to check their tickets from home.
- Urge players to sign tickets before coming to your location, so they do not have to use in-store pens.

## DISINFECT

- Keep disinfectant close by and regularly sanitize your Play Station and any supplies in your work areas frequently used by players.
- Wash your hands for at least 20 seconds as often as possible.

## STAY INFORMED

Pay attention to public health officials as well as ASL lottery terminal messages and retailer e-blasts for COVID-19 updates and resources.
