**Arkansas Lottery Commission Term Contracts for Goods and Services
January 1 through January 31, 2012**

On January 20, 2012, The Arkansas Lottery Commission (ALC) entered into a Non-Exclusive Licensing Agreement with Scientific Games International to allow the ALC to reproduce, use, and make copies of "Loteria®" licensed property. The agreement was provided to the Arkansas Lottery Commission Legislative Oversight Committee.

**Arkansas Lottery Commission
Debt Set-Off / Retailer Losses
January 2012**

1. Debt Set-Off:

a.	Department of Finance and Administration	\$14,619.00
b.	Office of Child Support Enforcement - Child Support	\$ 1,600.00
	Total Debt Set-Off:	<u>\$16,219.00</u>

2. Retailer losses for period January 1 through January 31, 2012: Three (3) accounts totalling \$10,520.73.

Due to their age and probability of their collection, certain retailer balances have been charged as losses during January for financial accounting purposes. These losses have accordingly been charged against the retailer Fidelity Fund reserve. The retailer Fidelity Fund is a reserve account established for the lottery by statute, and funded by an annual fee charged to all licensed lottery retailers. These losses will not impact lottery proceeds. The write-off of these balances to the reserve account for accounting purposes, does not diminish the Lottery's legal ability to continue to pursue collection, and attempts to collect these amounts will continue through all avenues available to the lottery.

Arkansas Lottery Commission – Internal Audit
Arkansas Lottery Commission Legislative Oversight Committee Monthly Report
February 8, 2012

Attachment A - Review of Findings and Recommendations from the Division of Legislative Audit's June 30, 2011 Audit Report.

Note – This will be the final Review of Findings and Recommendations from the Division of Legislative Audit's June 30, 2011 Audit Report. Audit Report Finding 2011 – 2 concerning employee travel reimbursements has been cleared.

No other issues or problems have been reported to the Arkansas Lottery Commission since the previous report submitted to the Arkansas Lottery Commission Legislative Oversight Committee on January 9, 2012.

**Arkansas Lottery Commission – Internal Audit
Review of Findings and Recommendations from the Division of Legislative Audit’s
June 30, 2011 Audit Report
Status Report – February 8, 2012**

Audit Report Finding 2011-1:

Ark. Code Ann. § 23-115-205(a)(12) provides that the Commission has powers necessary to select and contract with vendors. Additionally, Ark. Code Ann. § 23-115-701(c)(2) requires the Commission to solicit competitive bids for major procurement contracts, which Ark. Code Ann. § 23-115-103(14)(A) defines as a contract for a gaming product or service costing more than \$75,000. The Commission awarded the comprehensive advertising, marketing, and media service contract to a vendor, for which JM Associates, Inc. was a subcontractor. Subsequently, without a contract, the Agency paid JM Associates, Inc. \$91,740 for producing commercials for broadcast, thus circumventing procurement law.

Recommendation for Finding 2011-1:

We recommend the Agency seek advice from the Arkansas Lottery Commission and the Attorney General as to the legality of this arrangement.

Audit Objective #1

Determine that expenditures for producing commercials for broadcast are being procured through The Communications Group.

Status - The Lottery is procuring projects from JM Associates, Inc. through its advertising, marketing, and media services vendor. Internal Audit did not note any payments to JM Associates, Inc. during September 2011, October 2011, or November 2011.

This finding has been cleared by Internal Audit.

Audit Report Finding 2011-2:

Questionable travel costs noted in the prior year audit resulted with an in-depth analysis of employee travel reimbursement (TR-1) forms and supporting documentation. This review disclosed the following:

- A. Based on travel reimbursement credits received by the Agency from the instant ticket vendor, seven instant ticket planning sessions in Alpharetta, Georgia, appeared to have been attended by management. Because the Agency did not have adequate controls relating to vendor travel reimbursements, the vendor's Director of Security was contacted to verify the attendance of management at these planning sessions, each scheduled for three days. Information obtained indicated the following:
- For three of the seven instant ticket planning sessions, there was no record of any Agency representatives in attendance; however, the instant ticket vendor's Customer Service Team Leader confirmed attendance at one of these sessions.
 - For three of the seven instant ticket planning sessions, Agency representatives signed in for only one of the three days.
 - One instant ticket planning session coincided with the instant ticket vendor's annual security symposium in Atlanta, Georgia; therefore, no attendance information was available for this planning session.
- B. Based on analysis of vendor reimbursed travel costs and the number of business trips that resulted in the Executive Director or Vice-President of Gaming flying home, we question whether some travel was reasonable and necessary. While the Agency's employee manual requires 80 hours to constitute a full pay period, it appears the Executive Director and Vice-President of Gaming worked alternate work schedules based on analysis of travel. However, a policy authorizing alternate work schedules did not exist, and a review of leave records was inconclusive as to whether proper leave time was recorded.
- The Executive Director traveled to South Carolina, where he maintains a residence, 61 of the 261 working days in fiscal year 2011. In addition, for 10 of 16 business trips the Executive Director flew to South Carolina on the last day of the trip. As a result, the Executive Director was in non-business travel status for all or part of 71 days, or 27% of work days.
 - The Vice-President of Gaming traveled to either South Carolina or Maine, where he maintains residences, 48 of the 261 working days in fiscal year 2011. In addition, for seven of 10 business trips, the Vice-President of Gaming flew to South Carolina on the last day of the trip. As a result, the Vice-President of Gaming was in non-business travel status for all or part of 55 days, or 21% of work days.

Status Report – February 8, 2012**

- C. Department of Finance and Administration (DFA) travel regulations require that the administrative head of each agency ensure all supporting documentation is maintained in connection with business travel. However, examination of supporting documentation indicated the following:
- Several instances of redacted information, including portions of flight schedules, addresses, and payment methods, were found.
 - Supporting documentation for numerous TR-1 forms contained conflicting information.

Recommendation for Finding 2011-2:

We recommend management review DFA travel regulations to ensure travel reimbursements are adequately explained and documented. The Commission should also review the matters discussed above and assist the Agency in implementing sound business practices that strengthen controls over travel, vendor travel reimbursements, and alternate work schedules.

Audit Objective #2

Determine that Lottery management has enhanced its travel policies and procedures to strengthen internal controls over employee and vendor travel reimbursements.

Status – The Lottery’s Chief Fiscal Officer (CFO) has revised the Lottery’s travel policies and procedures to strengthen internal controls over business travel reimbursements. The Lottery’s policies and procedures are consistent with DFA travel regulations. In addition, procedures for vendor travel reimbursements are addressed in the document.

This finding has been cleared by Internal Audit.

Status Report – February 8, 2012**

Audit Report Finding 2011-3:

The Control Objectives for Information and related Technology (COBIT) Deliver and Support 12 requires that physical access controls to Agency facilities be regularly reviewed to determine proper functioning. A review indicated the following deficiencies:

- Numerous vendors and auditors had physical access to Agency offices; however, Agency security did not periodically verify that these individuals still required access, creating the risk that unauthorized individuals may access Agency facilities.
- Although policy requires data retention for 5 years, the Agency maintained records of key card door access for only 30 days, which did not sufficiently allow for examination in the event of a security breach.

Recommendation for Finding 2011-3:

We recommend the Agency strengthen security controls and retain an electronic record of key card door access for 5 years to comply with the Agency’s internal policy GS10010.

Audit Objective #3

Determine that Lottery management has established policies and procedures to periodically review the access rights to Lottery facilities for vendor employees and auditors.

Status – The Lottery’s Security, via email, requests a monthly list of employees from Intralot, Scientific Games, and Legislative Audit that will require access to Lottery facilities and the Back Office System (BOS). Lottery Security will update access to Lottery facilities/BOS based on the responses received. Internal Audit noted that the lists were obtained and reviewed by Lottery Security personnel for the months of November 2011 and December 2011.

Status Report – February 8, 2012**

Audit Objective #4

Determine that Lottery management has established procedures to retain an electronic record of key card door access for 5 years to comply with the Lottery's internal policy.

Status – Internal Audit confirmed that key door card access records have been retained in accordance with the Lottery's Records Retention Policy since September 2011.

This finding has been cleared by Internal Audit.

Audit Report Finding 2011-4:

The Control Objectives for Information and related Technology (COBIT) Deliver and Support 5 - Ensure Systems Security requires logical access controls be in place to safeguard information against damage, loss, or unauthorized use, disclosure, or modification. A third party application manages day-to-day gaming functions and provides game-specific financial data. A review indicated the following security deficiencies that increased the risk of accidental or intentional errors, fraud, or disclosure of confidential and proprietary information:

- The Agency did not periodically review user access.
- The Agency allowed the use of user-ids not attributable to a single individual.
- Password rules were inadequate as defined in State of Arkansas policy 70-002 *Password Management*.
- Vendor access allowed for modification of the application and data without Agency monitoring.
- Agency and vendor users had access to transactions not necessary to complete their job duties.

**Arkansas Lottery Commission – Internal Audit
Review of Findings and Recommendations from the Division of Legislative Audit's
June 30, 2011 Audit Report
Status Report – February 8, 2012**

Recommendation for Finding 2011-4:

We recommend the Agency strengthen security controls to ensure user access is commensurate with the individual's job requirements, vendor transactions are adequately monitored, and password rules meet State of Arkansas policy.

Audit Objective #5

Determine that the Lottery has reviewed user access roles in the Back Office System (BOS) to ensure they are commensurate with the individual's job requirements. Also, determine that the Lottery has established procedures to periodically review security role assignments.

Status – Internal Audit noted that the Security Department completed a review of user security role assignments in September 2011 and updated employee and vendor access rights. Lottery Security has assigned an employee to conduct quarterly reviews of the event log application and the user role report to ensure Lottery and vendor employees have access to BOS functions based on their job duties.

Audit Objective #6

Determine that Lottery management has eliminated the use of generic user-ids not attributable to an individual and has limited vendor administrative privileges in BOS.

Status – The generic user-ids are no longer utilized within BOS by the Lottery. The only exception is a user-id with administrative rights in which the password is stored in a sealed envelope at Intralot's facility for emergency use only. Lottery Security has established controls to monitor the usage/non-usage of the emergency user-id. A review of a BOS user role report did not reveal any other vendor users with administrative privileges.

Arkansas Lottery Commission – Internal Audit
Review of Findings and Recommendations from the Division of Legislative Audit's
June 30, 2011 Audit Report
Status Report – February 8, 2012

Audit Objective #7

Determine that the BOS password configuration conforms to the State of Arkansas policy regarding password management.

Status – Lottery Security has made the following changes to the BOS password configuration to ensure compliance with the State Policy concerning password security:

1. BOS users must change their password at least once every 90 days.
2. The minimum length of the password must be 8 characters.
3. A password may not be re-used within 6 password changes.

This finding has been cleared by Internal Audit.
