Arkansas Lottery Commission – Internal Audit Arkansas Lottery Commission Legislative Oversight Committee Monthly Report December 10, 2013

On December 2, 2013, the Arkansas Lottery Commission Internal Auditor (Internal Audit) presented results of the three audits to members of the Arkansas Lottery Commission (ALC), as follows:

Claim Center Operations Audit

The audit centered on controls, procedures, and processes relative to the operations of the ALC's four Claim Centers, located throughout the State. Fieldwork included review of documentation and information generated throughout fiscal year 2013 and through November 2013 (fiscal year 2014).

The following observation was reported to the ALC:

• Need for improved maintenance procedures relative to the Ineligible Players List maintained to ensure that only eligible players claim a prize at the ALC's Claim Centers.

Internal Audit noted that due to personnel changes, information was missing or inaccurate relative to the three most recently-appointed commissioners because no updates were sought or made in order to keep the Ineligible Players List current. Additionally, an update submitted by an ALC employee to reflect a potential player that was formerly ineligible as eligible was not made to the list. Internal Audit recommended that the Human Resources Division be designated as having sole responsibility to gather and compile any updates to the Ineligible Players List for both commissioners and employees, submit those updates to the Security Division to be processed, and then confirm the requested updates have been made by reviewing the updated list. ALC Management has responded stating concurrence with Internal Audit's recommendation and that development of a process to address the observation is underway.

Back Office System (BOS) Administration Follow-Up Audit

Follow-up audit procedures were performed relative to Internal Audit observations reported to the Arkansas Lottery Commission Legislative Oversight Committee on May 10, 2013. Follow-up procedures centered on ALC Management's implementation of controls, procedures, and / or processes to address the observations noted in the initial audit of the BOS Administration process, and included review of reports and information generated through October 2013. Internal Audit concluded that ALC Management has effectively addressed Observations #1 through #4 from the initial audit, and had additional observations relating to Observations #5 and #6 from the initial audit, as follows:

- Users with access levels that appeared to be outside the level of access needed for completion of their assigned job duties or presented potential segregation of duties issues.
- Lack of evidence of review of the monthly user access / outside user confirmation review by either the Director or Deputy Director of the Security Division, as was suggested in the initial audit.

Arkansas Lottery Commission – Internal Audit Arkansas Lottery Commission Legislative Oversight Committee Monthly Report December 10, 2013

Relative to #1 above, Internal Audit extended testing to all users of BOS as part of the follow-up testing. Upon discussing what was observed as part of the follow-up testing with the Security Division, changes to access were immediately made within BOS, and Internal Audit verified that all suggested access changes brought to the attention of the Security Division were made.

Relative to #2 above, Internal Audit noted that while discussions with ALC Management indicate that ALC Management is reviewing the monthly user access / outside user confirmation process, no documentation exists to support this review, and as such, affirmed the initial recommendation that ALC Management formalize its review by sign-off on documentation already retained to evidence the user access / outside user confirmation review process taking place. ALC Management has indicated that steps have already been taken to formalize this review through signature on the packet of materials retained.

Accounting Close & Reporting Follow-Up Audit

Follow-up audit procedures were performed relative to Internal Audit observations reported to the Arkansas Lottery Commission Legislative Oversight Committee on July 10, 2013. Follow-up procedures centered on ALC Management's implementation of controls, procedures, and / or processes to address the observations noted in the initial audit of the Accounting Close & Reporting process, and included review of reports and information generated through October 2013. Internal Audit concluded that ALC Management as effectively implemented a process to track the timing and completion / review responsibilities relative to account reconciliations, and had an additional observation as a result of the follow-up procedures, as follows:

 A general ledger account reconciliation missing for two months of the current fiscal year for one account and no documentation to support the reconciliation process for another general ledger account.

Internal Audit recommended to ALC Management that a process be adopted whereby the CFO performs a completeness cross-check to ensure all account reconciliations listed on the document now used to track timing, completion, and review of account reconciliations have been completed as documented. ALC Management has responded stating that the CFO would perform a cross-check on an unannounced sample of accounts to verify existence of reconciliations included on the monthly tracking document.

For all of the observations noted for the three audits above, additional follow-up procedures are necessary for Internal Audit to consider them cleared. The Arkansas Lottery Commission Legislative Oversight Committee will be kept apprised of the results of follow-up procedures, once they are completed.

No additional items have been reported to the Arkansas Lottery Commission since the previous report submitted to the Arkansas Lottery Commission Legislative Oversight Committee on November 10, 2013.
