

AGENDA
ARKANSAS LOTTERY COMMISSION
Thursday, August 19, 2010
2:15 p.m.
Wyndham Riverfront Hotel
Silver City V, VI, VII
2 Riverfront Place
North Little Rock, Arkansas

- I. Call to Order
- II. Approval of minutes of July 7, 2010
- III. Discussion of Operational Rules
- IV. Report from Director
- V. Marketing Presentation
- VI. Report from Internal Auditor
- VII. Report from Standing Committees
- VIII. Other Business
- IX. Executive Session

Adjourn

The Audit, Finance and Administration Committee will meet following the Commission meeting.

August 19, 2010

FAMILY COUNCIL

414 S. Pulaski • Suite 2
Little Rock, AR 72201
(501) 375-7000

Dear Arkansas Lottery Commissioners:

I respectfully request that you voluntarily delay installation of any and all lottery machines until after the Lottery Oversight Committee and the Arkansas Legislature have had ample opportunity to consider concerns raised by members of the public and propose legislation regarding the machines and the rules that govern them at the next Arkansas General Assembly. There are four primary reasons I ask you to institute this delay.

First, there are serious deficiencies in the rules the Lottery Commission has proposed governing the lottery vending machines. Numerous statements have been made to the press by lottery representatives indicating that the vending machines will require players to swipe a driver's license in order to play, and that the machines will be under supervision by a store clerk or similar personnel, but neither of these requirements are explicitly stated in the rules the Commission is considering. Moreover, the rules use terms such as "continuous play" that are not defined in the rules, and may, therefore, open the door to future lottery vending machines that are no different than a slot machine. These rules and definitions rise to a level worthy of legislative attention, and should be clarified through amendments made to the Arkansas Lottery's enabling legislation rather than through rules and regulations handed down by the Lottery Commission.

Second, over 1,200 Arkansans sent comments to the Arkansas Lottery Commission requesting these machines not be installed. Because such a large number of citizens have engaged in the public discourse over the lottery vending machines, it is appropriate for the elected representatives of all Arkansans to have an opportunity to consider their constituents' concerns and wishes.

Third, many have voiced concerns that these machines will open the door to underage gambling in Arkansas. The Arkansas Legislature has a responsibility to ensure no action by Arkansas' government or its agencies harms its citizens. The Arkansas Legislature routinely studies the impact of legislation and government activity, and can better assess the impact lottery vending machines will have than any other group or agency.

Finally, no clearly articulated case has been made concerning the cost-benefit analysis of the machines and why they are necessary for Arkansas. Because it is important for all advantages and disadvantages to be weighed before moving ahead with a decision like this one, it is especially important that Arkansas' elected officials have ample opportunity to determine whether these machines do, in fact, represent the best interests of their constituents. Proponents and opponents of the machines will have equal opportunity to present their views to the Legislature, and the Legislature will be able to offer a clear decision on the matter.

If the Arkansas Lottery Commission genuinely believes that these machines represent the future of Arkansas' lottery and the best interest of Arkansans, then they should have nothing to fear from delaying installation of the machines until after the Arkansas Legislature has considered their proposal and offered a legislative decision on the machines and the rules that govern them.

I look forward to your response.

Sincerely,

Jerry Cox
President

MINUTES
ARKANSAS LOTTERY COMMISSION
Wednesday, July 7, 2010
8:30 a.m.
ALC Conference Room
Third Floor
124 West Capitol Avenue
Little Rock, Arkansas

The meeting was called to order by ALC Chair Dianne Lamberth. Commissioners Pickard, Campbell, Hammons, Malone, and White were present in person. Attending by teleconference were Commissioners Smith, Shipp, and Ward-Jones. Director Ernie Passailaigue represented the staff, along with David Barden, Ernestine Middleton, Julie Baldrige, Bishop Woosley, Lance Huey, and Patricia Vick. Internal Auditor Michael Hyde and Auditor Whitnie Hall also were present.

The minutes from the June 2, 2010, meeting were reviewed and unanimously approved.

Commissioner Lamberth recognized Commissioner Pickard, chair of the Higher Education Committee. Commissioner Pickard introduced Tara Smith and Dr. Jim Purcell of the Arkansas Department of Higher Education, who presented an informational program on the current status of the Lottery Scholarship program (Arkansas Academic Challenge Scholarships). Dr. Purcell stated that the lottery funding was making a difference. They reported 53,500 applications and went into detail about traditional and nontraditional students as well as current achievers, the number of college hours students must take and the grade point average that must be maintained in order to retain the scholarships, and other important information. The Commissioners asked for information about race, gender, and regional numbers; how students can apply if they do not have access to a computer; when students will be notified; whether there will be a breakdown by institution, county, and the like. Commissioners were told that there would be a full report in October.

Director Passailaigue then presented his report. The Lottery has raised \$29 million over the projected amount of anticipated gross revenue and has delivered almost \$83 million for scholarships during its first nine months. He discussed the financial specifics of different lottery products, unclaimed prizes, and the Ticket Vending Machines. He reported that talks are underway on a Southern Regional Lottery Game. He described the Raffle game to begin selling 500,000 \$10 tickets on July 14. Commissioner Smith inquired about sales projections and Director Passailaigue said he is comfortable with what has been projected for FY2011. Commissioner Malone asked for a presentation from the ASL Marketing team at a future meeting.

Commissioner Lamberth then recognized Commissioner Hammons, Chair of the Personnel Committee, for a report. He recommended approval of the ASL Employee Manual as amended, and moved to do so, seconded by Commissioner Ward-Jones and approved unanimously.

Commissioner Smith was recognized as Chair of the Legal Committee to give a report. He said the Committee met on June 24, elected him Chair, and discussed the TVMs

rules, specifications, and placement. A discussion was held regarding the types of businesses that the TVMs would be placed in, including airports, box stores, and larger stores that did not fit the traditional model of selling lottery tickets through check-out lines such as in most of the small businesses and convenience stores in Arkansas. He noted the changes to the Operational Rules and recommended approval, by motion made and seconded by Commissioner Ward-Jones and unanimously approved. The proposed amendments to the Operational Rules will be published to provide a period of public comment and forwarded to the Legislative Oversight Committee.

Internal Auditor Michael Hyde reported that 13 audits have been completed and thanked the officials at the Bank of the Ozarks and Chief Fiscal Officer Philip Miley for their help. He will be doing end of game audits on closed out games and said there are eight audits in progress.

Commissioner Pickard announced that the Higher Education Committee would meet immediately after adjournment. Commissioner White announced that the Retail Committee would meet immediately after adjournment. It was announced that the next meeting of the Legislative Oversight Committee was set for August 26 at 10 a.m.

Commissioner Lamberth set the next ALC meeting for August 19 at 1 p.m. There being no further business, the meeting was adjourned.

Instant Ticket Analysis

09/28/09-07/31/10

Financial Statements	Actual Payouts
Sales	\$364.6
Prizes	\$248.1
% Payout	68.1%

Sales \$364.6
 Prizes \$248.1
 % Payout 68.1%

Difference In % Payout Is 4.6%; Estimate Is 3.0% Attributable To Unclaimed Prizes.

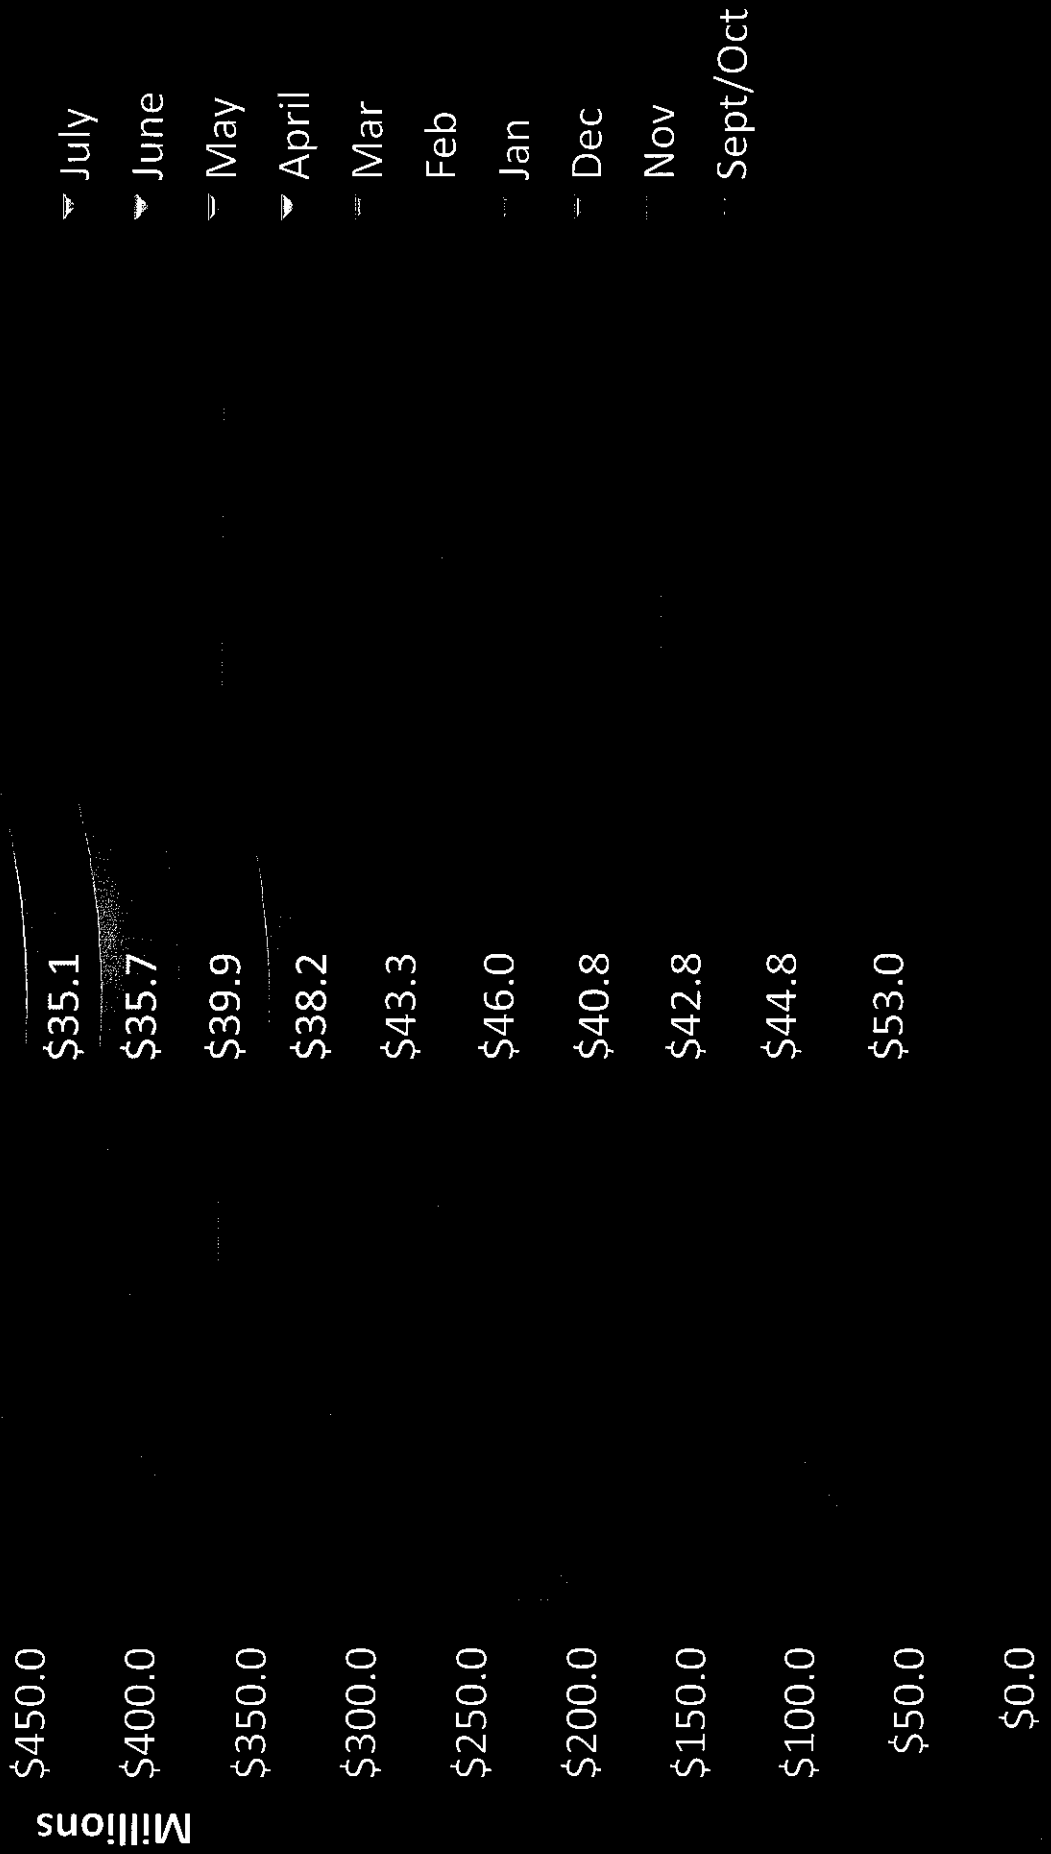

3.0% of \$364.6 Million Equals \$10.9 Million.

Note: The financial statements to date have zero credited for unclaimed instant ticket prizes.

Unclaimed Prizes-Closed Games

Game	Estimated Unclaimed	% Unclaimed
Arkansas Riches	\$246,375	2.5%
Jumbo Bucks	\$546,029	2.9%
\$100,000 Cash Bonanza	\$310,101	1.6%
Super 7s	\$282,602	3.0%
Stocking Stuffer	\$ 50,194	2.1%
\$50,000 Holiday Cash	\$ 82,352	2.3%
Candy Cane Cash	\$102,642	4.1%
\$500,000 Jackpot	\$780,914	3.4%
Beat The Dealer	\$176,709	5.9%
Money Mania	\$321,586	3.4%
Lucky Loot	\$140,756	6.4%
High Stakes	\$ 81,646	5.8%
Totals	\$3,121,906	3.0%

Monthly Revenue Trend (Millions)

Monthly Scholarship Transfers

\$91.3 Million

Weekly Sales Trend 9/28/09 - 8/15/10

Percentages Or Dollars?

(Amounts in Millions)

State	Population	Revenues	Profits	Percentage
Arkansas (1)	2.89M	\$419.4	\$90.1	21.5%
Oklahoma (2)	3.69M	\$199.9	\$69.9	35.0%
Difference	.80M	\$219.5	\$20.2	13.5%
Estimate For Arkansas If 35% Profit Adopted		\$156.6	\$54.8	35.0%

(1) Period 9/28/09-07/31/10. Approximately 10 Months.

(2) Fiscal Year Ended June 30, 2010 – Source NASPL.

Conclusion: Funding For Scholarships Would Be Cut In Half, To Approximately \$55 Million Annually.

Arkansas

Scholarship Lottery

Ticket Vending Machines

(TVM)

TVM Fact Sheet

- Nationally, the majority of lottery players are 25 years old or older (Maritz Study).
- The majority of United States lotteries (36 out of 45) have deployed or will deploy ticket vending machines (See list attached).
- Most US lotteries utilizing Ticket Vending Machines (TVM) have no age verification component built into the machine.
- The Arkansas Scholarship Lottery (ASL) signed an Online Gaming Procurement in August, 2009. This contract was signed after it was reviewed by the Legislative Oversight Committee (LOC).
- The Online Gaming Procurement with Intralot requires Intralot to deliver 100 TVM with an age verification component.
- The one hundred TVM are included in the approved base pricing agreement with Intralot, regardless of deployment.
- The Online Gaming Contract with Intralot requires the vendor to sell additional TVM for a fixed price per machine.
- The ASL Retailer Contract specifies that retailers cannot sell lottery tickets to people who have not reached the age of eighteen.
- The ASL Operational Rules further require the retailer to have an employee insight of the TVM with the ability to stop transactions, if the employee has reason to question the age of a prospective player; the retail employee would be able to then inspect the license or other public document that verifies the prospective player's age.
- The ASL believes the age verification feature built into the TVM makes the environment at least as secure, if not more secure, as the current retailer review of age of a public document (such as a driver's license), because the TVM would not be able to read a falsified identification document and hence, would not be able to activate the lottery product for sale.
- The ASL Security Department is aware of only one case prosecuted in the State of Arkansas for players under the age of eighteen attempting to purchase lottery tickets.
- Utilizing TVM allow the ASL the opportunity to broaden its retailer base to businesses that would not normally consider selling of lottery tickets. By using TVM, businesses could more efficiently sell lottery products by not only reducing high labor costs, but also transaction times at the point of check out. The majority of these prospective new retailers would be large, chain stores, such as Wal Mart, Target, Dollar General, Walgreen, etc.
- The lottery industry is transitioning to automated, vending operations similar to the transformation of banks to ATMs.
- The Arizona Office of the Auditor General, in a June 2002 Report, concluded the Arizona Lottery should make greater use of TVM (See Attached).
- The revised ASL budget passed by the Arkansas Lottery Commission (ALC) and reviewed by the LOC incorporates the deployment of one hundred TVM for Fiscal Year 2011.
- The ASL staff estimates these one hundred TVM will net five million dollars for scholarships in Fiscal Year 2011 and every subsequent (See computation attached).
- If TVM are not deployed, then the Fiscal Year 2011 budget for net scholarships would need to be reduced by five million dollars.
- If the TVM are not authorized, then the ASL staff would estimate no new revenue growth to fund scholarships in future years.

Who Plays the Lottery - By Age A National Study By Maritz

Lottery States That Deploy Ticket Vending Machines

(Data Supplied by Intralot)

State	State	State
Arizona	Indiana	Missouri
California	Iowa	Montana
Colorado	Kentucky	New Hampshire
Connecticut (Future Deployment)	Louisiana (Future Deployment)	New Jersey
