SG Printing Press Fun Facts:

- Each of our presses is longer than a football field
- Some of the most sophisticated presses in the world
- Manufacturing instant lottery tickets is arguably more complicated than printing currency; it involves a highly complex printing process with a variety of press configurations, manufacturing and finishing processes
- Print well over 1 million tickets per hour
- Total press printing tolerances are within the thickness of human hair while running at speeds of up 1,000 feet per minute
- It takes over 1,000 feet of paper to “web” the press from end-to-end
