Monday's **Decades of Dollars** had *no top prize* winner. The drawing held at 10:00 P.M. (CT), however had BIG results for two lucky players in Arkansas. One ticket purchased in Monticello, at the Circle N location on Highway 425 and a second ticket purchased in Little Rock, at the Country Mart location on Baseline Road matched five of the six numbers drawn on Monday night, winning those two lucky players a very cool ten thousand dollars (**\$10,000.00**) each. The two lucky tickets sold at those lottery retail locations correctly matched five of the six numbers drawn, winning two of the **\$10,000** prizes. ***Now that's what I call being 'lucky on a Monday!'*** (odds of matching 5 of 6 are 1 in 43,649)

Even without a top prize winner in the Monday **Decades of Dollars** drawing **1,747 Arkansas players** in the game won prizes ranging from \$2 to the \$10,000. Overall odds of winning a prize 1 in 6.2 (including our *very lucky player* in the drawing).

If your checking your tickets now, the **Decades of Dollars** numbers drawn in Monday night's drawing were: **01 03 11 13 17 44**.

There were **three** additional winners in the game who also won \$10,000, two in Georgia, one Virginia. The odds of winning a ten thousand dollar prize in the game are 1 in 43,649.

There was *no top prize winner* in the **Natural State Jackpot** Monday night, tonight's Jackpot is **now \$115,000**. **Mega Millions®** Jackpot Tuesday is estimated at **\$58 Million** and the Wednesday night **Powerball®** Jackpot is estimated to be **\$40 Million**.

Good Luck and thanks for playing Arkansas,

**K. Kevin McCarthy**
