

This is the week to play Arkansas Natural State Jackpot!

Monday's Jackpot amount is *now* **\$195,000**, this amount marks an increase to the Natural State Jackpot, raising it to one of the largest Jackpot levels for the game to date! There has been only **13** Jackpots over **\$100,000** since the launch of the game. The games popularity and this Jackpot amount is a direct result of Arkansas player interest and excitement in the game. The game has not reached this level of play, number of consecutive draws without a top prize winner (34 draws) or Jackpot range since May 14th. There has been 570 drawings since the game's first on August 27th, 2012. *The Natural State Jackpot celebration continues to grow!* The success of the game has captured the imagination and anticipation of its players, the Natural State Jackpot will be won by a player (or players), who correctly match the five NSJ numbers drawn Monday night. In last night's NSJ drawing there were **4** players who match four of the five numbers drawn, each of those players were *just one number* away from winning the Jackpot amount. The odds of matching four of the five numbers drawn are just 1 in 3,387.

The June 21st NSJ game tickets sold totaled over **33,000**, along with the four 4 of 5 prize winners there were **3,751** winners of a cash prize in the game, from \$1 to the 4 of 5 prize of \$300.

The Natural State Jackpot is a Five Number Game (5 of 39), one of the most popular games offered by lotteries, they are considered quite winnable by players. They offer growing Jackpot amounts with some of the lowest overall odds of any Jackpot game offered. NSJ has had **22** top prize winners in the last **570** drawings, that averages out to one in twenty-six drawings held. Winning any Jackpot drawing depends on having a ticket for the drawing that matches all the numbers drawn. The odds of winning the NSJ are 1 in 575,757, the overall odds of winning a prize in the game 1 in 9.

The **Natural State Jackpot** game is *only available* in Arkansas. If there is no Jackpot Winner Monday tonight, the **\$195,000** Jackpot will roll to **\$200,000** for the Tuesday night drawing. **Mega Millions®** estimated Jackpot for Tuesday night is now **\$25 Million** and the **Powerball®** Jackpot is estimated at **\$70 Million** for the Wednesday night drawing!

A portion of *all game sales* contribute directly to Arkansas education, approximately 50% of the NSJ game sales can be counted as return for the lottery to support scholarships in the state, for current and graduating high school seniors. Additional scholarship information can be found by visiting the Arkansas Department of Higher Education website at www.adhe.edu.

NSJ players choose just 5 numbers between 1 and 39 in this game and player's can choose to play up to 20 consecutive draws in NSJ. Each play costs \$1. The game is drawn six nights a week (Monday through Saturday), at 8:00 P.M. (CST)

Players matching two numbers will win \$1; three numbers win \$7; four matching numbers win \$300, and all five numbers will win the jackpot, guaranteed to be worth at least \$25,000. Each night in which there is no big winner, an additional \$5,000 is added to the jackpot. If there is more than one jackpot winner,

the prize will be equally divided among all the jackpot prize winners. The overall odds of winning are one in nine. *The Natural State Jackpot prize amount is pre-tax. Tickets sold based on sales data.

Good Luck Arkansas and thanks for playing,

K. Kevin McCarthy
